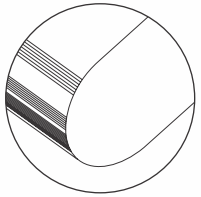
The Style Of Heights

STEP & RISER

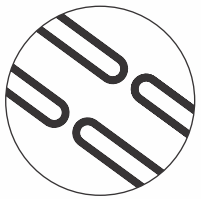
The step & riser tiles are created keeping in mind the need to install tiles in stairways or such high spaces. Our step & riser tiles are designed with a bullnose edge to avoid any harm that might occur due to sharp-edged tiles while climbing up or stepping down. These tiles come in 15mm thickness and with an anti-skid surface to provide a comfortable and durable experience.

STEP RISER



BULL NOSE PROTRUSION

The Bull Nose Protrusion is the key feature of our step and riser collection. The feature offers several advantages, which ensure security, ease in use, and also a distinctive look to your staircase. The round edge prevents extensive bodily harm in case of impacts and also experiences less wear and tear after extensive use.



SELF EMBOSSED THREAD LINES

The step tiles of the collection consist of self embossed lines at the end of tiles to ensure grip to the user of the staircase. The feature makes the tiles antiskid and also aids ease in use. The thread lines are of the same color and the look of the tiles making your staircase look seamless.
