WHY US?

The result of a revolutionary technology that eliminates all limits of conventional materials.

With the help of pressure and temperature we transform 100% natural materials into our refined designs. We bring together the best of both worlds of nature and technology.

For us, Quality and above all Quality in Innovation is the keystone of every activity, the value that must underlie its market identity, and which it must systematically deliver to its own partners. It is only through research and innovation that something unique and exclusive can really be created, because it is through the choice of the materials to be placed in the spaces around us that we change our quality of life.

600x1200mm

ADVANTAGES

LIGHTNESS

A minimum thickness of 6 mm for cladding and flooring: for countertops, we recommend 12 mm and 20 mm.

MADE IN IND

We manufacture in India and all of our raw materials are brought to us from various parts of the country, meeting all the corresponding quality standards.

WATER PROOF

Moisture absorption is less than 0.08% with zero odor absorption.

CUT RESISTANCE

Suitable to use as kitchen counter tops.

Recycled

70% of the materials used are reused.

LargeFormat

600x1200 MM formats for all indoor and outdoor use.

100% NATURAL

All materials used are of 100% natural mineral origin.

UV RESISTANCE

Ultraviolet resistance and surface stability over time.

HIGH RESISTANCE

To high and low temperatures, UV rays and bending.

HYGIENIC

Extremely easy to clean and resists chemicals, bacteria and fungal proliferation.

LOW TEMPERATURE RESISTANCE

Resistance to low temperatures and frost. Suitable for outdoors.

HIGH TEMPERATURE RESISTANCE

Fireproof and non-combustible material that allows contact with utensils at high temperatures.

ANTI-STAIN

Thanks to the technology applied and the materials used. We do not pollute.

Freshness, warmth
and stylistic
immediacy.
